Re: FGP Testimonial for Pixelcarve Inc.

In early 2014, our firm began the search for a partner to help us create a new website. We interviewed a handful of web design firms, but ultimately chose to work with Pixelcarve Inc. because we felt Curtis and his team understood what we were looking for in a new website.

Curtis and his team were very helpful in guiding us through the design process. We met on several occasions to discuss ideas, issues, progress, and milestone achievements. We found the Pixelcarve team very easy to deal with and very knowledgeable.

Although Pixelcarve was the web design expert in this partnership, we were always able to voice our opinion and make suggestions throughout the design process. We found Pixelcarve's collaborative nature very helpful – they did not simply take hold of the steering wheel and drive where they wanted to. Their goal was to ensure that we felt one hundred percent happy with our new website and that we loved it completely.

We are very proud of the way our new website looks and functions. It helps evoke the clean, sophisticated image we were aiming for.
